

MBF

Manual Bottom Flap Folder Packing Station

The BestPack™ MBF is a bottom flap folder and packing station that closes the bottom flaps and holds the carton in position while the operator fills the carton. The operator then pushes the carton to the next station. The MBF is a great addition to BestPack's flagship carton sealers and provides a total packing line solution.

All BestPack units are available in our standard baked enamel finish and food grade 304 stainless steel for 21 CFR 110 compliance.
