

OUR PREVENTATIVE MAINTENANCE PROGRAM

Protect Your Packaging Line from Costly Breakdowns

LEARN MORE

Sign up for our preventative maintenance program today to reduce downtime and extend equipment life. Our Canada-only program keeps machines running safely and efficiently with flexible options, quarterly (4 times a year), semi-annual (twice a year), or annual service (once a year). All visits are billed at standard labour rates for transparent, predictable costs and consistent performance.

Packaging Machines We Work on

Our Preventative Maintenance Program is available for all types of packaging machinery, not just the equipment we sell. Whether you're running a shrink wrapper, pallet wrapper, case sealer, or any other packaging system, our experienced technicians provide expert service to keep your machines operating safely, efficiently, and reliably for years to come. Many customers take advantage of this program to extend the life of their older machines or to ensure optimal performance from more automated or complex equipment.

Scope of Work Performed

- Inspect/lubricate all chains, gears, and drive systems.
- Test sensors, safety devices, and indicator lights.
- Visually inspect wiring and overall machine condition.
- Clean equipment exterior and surrounding service area.
- Review findings with operators and recommend repairs.
- Leave contact information for future communications.

Service Time/Notes

- Minimum 2-hour visit (includes 1-hour travel time within GTA).
- Extend equipment life and prevent early replacements.
- Flexible scheduling to minimize downtime during peak hours.
- Rapid response available for emergency service calls.
- Travel outside GTA billed for actual time both ways.
- Replacement parts & repairs charged additionally.
- Infeed & outfeed systems serviced at additional cost.

Proudly Canadian. Dedicated to Packaging Excellence.

For over 40 years, Gertex Solutions has been a trusted partner in the Canadian shrink wrap market. Proudly Canadian-owned, we've partnered with businesses nationwide to deliver reliable, cost-effective packaging solutions.
